Why digital law books?

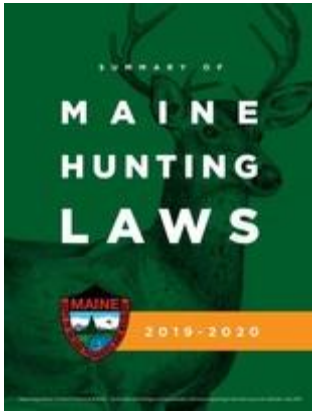

In 2016, we printed over 700,000 law books. That's a lot of paper and a lot of resources diverted from Maine's fish and wildlife.

With 77% of the U.S. population using smartphones in 2017, our agency's mission clearly directed us to make a shift. And while we're still printing some books (available at license agent locations), we're asking you to do your part and make use of the convenient and responsible digital options.

As a bonus, the digital options are searchable and always on hand, as long as you have your mobile device. If you always keep it on you (and charged) to take photos or use the GPS, this is a no-brainer.

Hunting season is approaching! Be prepared, review Maine's [2019-2020 hunting laws](#) today.
